About

UI/UX Designer focused on designing intuitive digital products and seamless user experiences. I leverage UX principles, AI-assisted workflows, and collaborative problem-solving to create responsive, accessible, and production-ready solutions.

Experience

Associate UI Designer — June 2025 – Present
Compunnel

- Design intuitive web interfaces and responsive digital experiences using Figma.
- Redesign enterprise websites to improve usability, accessibility, and visual consistency.
- Collaborate with developers to ensure seamless implementation and production-ready handoff.
- Leverage AI-powered tools to accelerate ideation, content refinement, and design exploration.
- Support WordPress-based website updates and implementation.
- Create wireframes, prototypes, dashboards, and UI concepts for diverse digital experiences.

Process Developer — Feb 2023 – May 2025
Genpact

- Managed home loan documentation and operations for Westpac Banking Corporation.
- Ensured accuracy and compliance through detailed quality checks and process validation.
- Strengthened analytical thinking, problem-solving, and stakeholder collaboration in a fast-paced environment.
